Grade: 99.4%**2020- 2021**

- Ranked 1st in the city, excelling in a challenging curriculum with a focus on Computer Science.

SKILLS

Technical skills –

- **Programming Languages** : JavaScript, Java, C++, Python, Scala, PHP
- **Databases** : MongoDB, MySQL, Database design (SQL/NoSQL), CRUD operations
- **Express.js** : RESTful API development, Routing, Request handling, API testing using Postman
- **React.js** : Component-based architecture, State management, Hooks, React Router, Virtual DOM
- **Node.js** : Asynchronous programming, File system interaction, Server-side scripting
- **Version Control** : Git, Github, Branching, Merging, Pull requests
- **Front-end styling** : CSS, Bootstrap, Responsive design principles, Tailwind

Soft skills – Communication, Collaboration, Problem-Solving, Adaptability, Time Management

PROJECTS

Student Course Hub (Full Stack)

- Developed a full-stack web application using HTML, CSS, JavaScript, PHP, and MySQL allowing students to explore academic programs and register their interest securely.
- Built an Admin Panel with CRUD functionality, student email management, while using GitHub for version control.

Final Year Module Selection Tool

- Designed a Final Year Module Selection system using Java and JavaFX, applying Object-Oriented Programming principles to create an interactive and user-friendly interface.
- Implemented functionality for module selection, personal data management, and file storage with options to save and load user data efficiently.

Beats Website – [View project](#)

- Designed a visually appealing static website focused on headphones, showcasing product features and specifications with emphasis on clean design.

WORK EXPERIENCE

Course Representative | De Montfort University

Sep 2023-Present

- Actively raise academic issues and provide feedback to faculty, influencing policies and improving the student experience.
- Collaborate with fellow course reps across the university to enhance academic representation.

Warehouse Operative | DPD UK

Sep 2023-Present

- Maintain high attention to detail and organization in a fast-paced environment, working with the team to meet operational targets and deadlines.
- Process and track parcels accurately using scanning systems, ensuring efficient workflow and data integrity across the warehouse.

Retail Assistant Volunteer | British Heart Foundation

Aug 2023-Jan 2025

- Collaborated with other retail staff to ensure all customer needs are met promptly.
- Performed cashier duties and acting as the customer face for the charity, building a rapport with the public and helping to improve my communication skills.

ADDITIONAL INFORMATION

Certifications – Google IT Automation with Python (Coursera), Full Stack Development (PW Skills)

Languages – English, Hindi, Punjabi
